DETAILED ACTION

1. Applicant's amendment, filed 01/27/05 is acknowledged.
2. Claims 9-46 and 53-97 are pending.
3. Applicant's election with traverse of Group, XXXII, claims 66-67, now claims 66 - 68 and 93-97 in the reply filed on 01/27/05 is acknowledged. Applicant traverse the Restriction Requirement on the grounds that the search of Groups XXXII and XXXI together would not constitute a serious search burden on the examiner and that search of the claims of Group XXXII would provide useful information for the claims of Group XXXI.

Upon further consideration of Applicant's arguments and in view of the amendment filed on 01/27/05 the restriction requirement between groups XXXII and XXXI is hereby vacated.

In view of Applicant's amendments, filed on 01/27/05, the following Species Election is set forth below.

Species Election

4. Applicant is further required under 35 USC 121 (1) to elect a single disclosed species to which the claims would be restricted if no generic claim is finally held to be allowable and (2) to list all claims readable thereon including those subsequently added.
5. Applicant is required to elect a specific method of stimulating stem cell division, wherein one specific INPROL peptide is selected from the group recited in claims 93, 94, 96 or 97 and one specific opiate compound is selected from the group recited in claims 68.

These species are distinct because a specific method of stimulating stem cell division, wherein one specific INPROL peptide is selected from the group recited in claims 93, 94, 96 or 97 and one specific opiate compound is selected from the group recited in claims 68 differ with respect to the specific INPROL peptide and specific opiate compound; thus each specific method employing a specific INPROL peptide and specific opiate compound represents patentably distinct subject matter. The examination of species would require different searches in the scientific literature.

Art Unit: 1644

6. Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. § 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. M.P.E.P. § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. § 103 of the other invention.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

8. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed.

A telephone call was made to Gary Tanigawa on 3/25/05 to request an oral election to the above species requirement, but did not result in an election being made.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michail Belyavskiy whose telephone number is 571/ 272-0840. The examiner can normally be reached Monday through Friday from 9:00 AM to 5:30 PM. A message may be left on the examiner's voice mail service.
